SUMMARY

SAP HANA Consultant & Technology Lead with 6+ years of experience in SAP HANA and enterprise data solutions. Specializing in building scalable data systems, data modeling, and driving business transformation initiatives. Experienced in stakeholder management, agile delivery, and leveraging automation and emerging AI technologies to improve enterprise outcomes.

PROFESSIONAL EXPERIENCE

Technology Lead, Infosys

01/2025 – Present

- Currently working as an SAP Native HANA Consultant and Developer for AGCO, leveraging SAP HANA technologies to design, develop, and optimize Calculation Views, SQLScript procedures, and enterprise data models, enabling scalable reporting and analytics solutions for global business stakeholders.
- Developed and maintained XSJS applications and services to support business reporting, data access, and enterprise solution requirements.
- Collaborated with business process owners and cross-functional teams to translate complex business requirements into scalable SAP HANA and cloud-based solutions supporting enterprise digital transformation initiatives.
- Optimized SAP HANA models, SQL, and PL/SQL procedures, improving system performance and processing efficiency by up to 20%.
- Led automation and process improvement initiatives as Problem/Automation Manager, reducing manual effort and enhancing operational workflows.
- Mentored team members through code reviews, technical guidance, and agile delivery support to ensure high-quality project execution

Technology Analyst, Infosys

10/2022 – 12/2024

- Delivered SAP HANA and PL/SQL solutions for global enterprise applications, improving system performance and supporting large-scale business operations.
- Optimized SAP HANA models and complex PL/SQL queries, improving transaction processing and data retrieval efficiency by up to 40%.
- Designed and enhanced SAP HANA data models, Calculation Views, and scalable data pipelines using SAP SLT and BODS, enabling efficient data integration, enterprise reporting, and business-critical analytics solutions for Apple.
- Supported go-live activities by resolving technical issues, analyzing root causes, and ensuring minimal business disruption.

- Supported SAP HANA and PL/SQL-based enterprise applications, improving project delivery efficiency and system reliability.
- Implemented automation and Tableau-based monitoring solutions, reducing manual validation efforts and improving reporting accuracy.
- Performed troubleshooting, debugging, and performance optimization for critical SAP applications, minimizing downtime and operational issues.
- Collaborated with cross-functional teams to resolve technical challenges, enhance data security, and support seamless business operations.

EDUCATION

Bachelor of Technology, PSIT Kanpur

08/2015 – 06/2019

- Specialized in Electronics and Communications with 73 percentile.
- Published patent: *Medicart: Telemetry using RFID* (2018)
- Selected among Top 100 projects in India for India International Science Project.

TECHNICAL SKILLS

SAP & Database Technologies

SAP Native HANA, SAP HANA Modeling, SAP Datasphere, SAP BODS, SQL, SQLScript, PL/SQL, Data Warehousing, ETL Integration, Performance Tuning

Programming & Tools

Python (Pandas), XSJS, JavaScript, HTML/CSS, Shell Scripting, UNIX

Analytics & AI

Power BI, Generative AI, Prompt Engineering, Big Data, Data Modeling, AI-driven Analytics

Methodologies & Management

Agile Delivery, Stakeholder Management, Production Support, Incident & Problem Management, Business Transformation

CERTIFICATIONS

- | | | |
|---------------------------------|---------------------------------------|---|
| • SAP HANA Professional | • SAP HANA Basics Consultant | • Google Associate Cloud Engineer |
| • AWS Cloud Professional | • AWS Cloud Beginner | • Professional PL/SQL Associate |
| • Database and SQL Professional | • MySQL Associate | • Consulting Processes, Perspectives and Models |
| • Certified Python Associate | • Consultant Certified Unix Associate | • Agile Developer |
| • Open Source Professional | • Open Chain Practitioner | |

AWARDS & HONORS

Innovative Coding Solutions Award – Reduced processing time by 40%

Exceptional Client Satisfaction Award – Achieved 86% client satisfaction

Recipient of Infosys Business Ninja, Extra Mile, Rising Star, Insta, and Glory Awards
